

MAXAM175[®]
GLASS REPAIR FILM

THE ORIGINAL AND UNIQUE

Broken windows happen...

No building is exempt. It is impossible to predict when it might occur. They can be a real set-back costing precious time and money.

Boarding up is the traditional short term solution. Yet boarding up is expensive. What's more, it's often dangerous. Destructive to timber frames. Unsightly. And can result in irreparable damage to uPVC frames and double glazed units.

Worse, it tends to draw vandals like a magnet.

There is of course, a much better way. A cost saving, safe and practically invisible way...

We call it **MAXAM175**[®] —
you'll call it amazing.

MAXAM 175 is an outstandingly tough film – so strong a 35cm strip can lift a family car!

It's incredible adhesive is a closely guarded secret passed down through the generations.

Boarding up vs

MAXAM175[®]

An unsightly board...

One call out charge to board up a window can easily cost up to £150 out of hours.

Boarding up...

damages window frames	✗
is disruptive due to noisy sawing and hammering	✗
risks exposure to broken glass	✗
is psychologically depressing	✗
often involves shutting an area off	✗
darkens rooms	✗
destroys image	✗
invites further vandalism	✗
is often highly expensive	✗

or a highly secure, invisible film...

One 15m roll of MAXAM 175 makes safe many broken panes giving very substantial cost savings.

MAXAM175[®] glass repair film...

takes seconds to apply with no tools	✓
puts safety first, eradicates hazard of broken glass	✓
is aesthetically pleasing with no loss of daylight	✓
is one third the tensile strength of steel for high security	✓
goes on silently, no noisy sawing or hammering	✓
almost invisible – doesn't attract further vandalism	✓
saves you the high cost of emergency call outs	✓
completely seals out the elements	✓
is perfect for repairs in PVC frames and double glazing	✓
