

PURATM+

THE MOULD ELIMINATOR, DESIGNED FOR YOUR HEALTH

We created this mould eliminator so that:

- **You're not exposed to harmful chemicals that are often used for removing mould**
- **Treatment can be done in one visit**
- **Damage to your wallpaper + paint is avoided**
- **Mould is killed including the roots, giving the least chance of it regrowing (most mould sprays use bleach and will merely whiten it)**
- **An anti-microbial barrier is dried on which continues to kill any further mould growth**
- **It's skin-safe, meaning it's suitable for use around children and pets**
- **You don't have to vacate the property while the work is being done**
- **It's extremely simple to use and understand**

STAGE 1 : ENCAPSULATOR

Powerful organic formula for encapsulating spores

"Pura+ is great... We've been very impressed with the feedback we've been getting"

Solihull Housing

STAGE 2 : ERADICATOR

Biocides diluted to a safe level, that work together to kill the mould and roots, and remains active when dry

"Maxam Pura+ ...is the only one that does not have any ill health effects associated with it for general use"

H&S, Walsall Housing

"Really easy to use, no unpleasant fumes and was able to use on wallpaper with no discolouration at all, in all honesty I was shocked with how effective it was with no damage to decoration"

Vivid Homes
