

MAXAM PURA[™]+

ECO FRIENDLY MOULD, ALGAE & FUNGI TREATMENT

PURA[™] Two-Part Mould Treatment & Protection

The advanced mould treatment and protection from MAXAM

Mould is notorious for its considerable damage to properties, but worse still, can lead to serious health issues for residents.

Exposure to traditional biocidal products for treating mould can have even more damaging effects to health.

MAXAM PURA[™] two-part mould treatment will firstly encapsulate the mould spores and safely remove them from the surface then leave a high performance anti-microbial barrier on the surface. This will completely kill the mould and prevent further growth.

PART 1 : TREAT

- Organic formula
- Encapsulates and removes mould spores
- Breaks down greases, oils and mould deposits
- Skin kind

PART 2 : PROTECT

- Kills up to 99.9999% of bacteria and fungi
- Leaves anti-microbial barrier
- Non bleach
- Food safe

PURA[™]+

BENEFITS

- Non Toxic
- No PPE required
- Non Hazardous waste
- No diluting required – Ready to use
- 1 kit covers up to 40sqm
- Kills the mould back to the roots
- Leaves antimicrobial barrier to help prevent regrowth
- Safer for operatives, occupants and pets
- Easy to use

Contains:

- 1x 1L Mould Treatment
- 1x 1L Surface Sanitiser

Directions for use: Spray PURA[™] Mould Treatment onto contaminated surface plus surrounding area of 1sqm. Once entirely wet, scrub with medium stiff brush in circular motion. Leave to completely dry (this can be accelerated with hot air dryer). Once dry, wipe the surface with a clean microfibre cloth to remove contamination. Now apply stage 2 PURA[™] Surface Sanitiser.

Caution: Avoid contact with eyes.

Storage: Keep container closed. Protect from extreme temperatures and direct sunlight. Do not freeze. Keep out of reach of children.
